

## Steps to Take to Enroll as a Participating Network Pharmacy Location

1. Be an active Health Mart pharmacy.
2. Read the FAQs to understand the program.
3. Be a member of an approved PSAO: Health Mart Atlas, APNS, PPOK, and EPN
4. Read and sign the Joinder to the agreement between Health Mart and HHS (via a DocuSign form sent to you by email).

### Basic terms of the Joinder:

- Agree to donate/waive your pharmacy's dispensing fees for filling PrEP prescriptions for eligible patients as a part of the partnership. Dispensing fees will not be paid for these transactions.
- Accept reimbursement for the dispensed medication calculated at WAC.

**Please note:** There is a requirement to sign an amendment to the existing PDMI agreement. Your PSAO has taken care of this requirement for their members. If the terms and conditions are agreeable, the pharmacy can enroll by signing the joinder agreement sent via DocuSign prior to the deadline.

## How can my store receive the Joinder agreement?

- Contact your sales representative to initiate the process.
- Check your email for a DocuSign envelope from [Health Mart Operations @mckesson.com](mailto:HealthMartOperations@mckesson.com).
- Review the entire packet of documents focusing specifically on the agreement between HHS and Health Mart. Sign the joinder indicating you agree to the terms of that agreement. Other documents are included as background since they are mentioned in the Health Mart agreement.
- Your enrollment information will be shared with Trial Script and HHS. You will be added to the PrEP network and their [Pharmacy Locator](#).
- Stores who enroll by the 10<sup>th</sup> of the month will be active in the pharmacy locator on the 1<sup>st</sup> of the following month. For example, if you sign up on June 5<sup>th</sup>, you will be active and ready to accept patients' prescriptions July 1<sup>st</sup>.
