# Financial Review Services

Review your pharmacy's financial health to get your business back on track to success

Financial statements are critical to assessing the viability of a pharmacy. Being able to put together and understand financial statements like a profit and loss statement, balance sheet, and cash flow statement can help you identify what parts of your business are working and where you could be more efficient.

Pharmacy ownership is a business, and an entrepreneurial approach is necessary to achieve success. Regardless of your wholesaler affiliation, connect with the RxOwnership® team of trusted experts for a no-fee financial review and consultation to determine how you can maximize and grow your pharmacy business.

## How RxOwnership can help you:

- Interpret financial statements to identify your pharmacy's strengths and weaknesses
- Compare your results to national benchmarks and determine areas of improvement
- Identify opportunities to increase your bottom line
- Set business goals and develop action plans to achieve better results
- Implement action plans and monitor progress
- Routinely evaluate your pharmacy's performance and value
